Update from the President – May 2023

OGC Finances – the President, Vice President and Treasurer will be consulting with a financial service organization to verify that we are complying with standard financial reporting procedures. We will also inquire if an external financial audit should be considered. In 2009, a Minnesota tax bill was signed into law that included an important provision for nonprofit organizations to increase the threshold at which organizations are required to obtain an audited financial statement. The provision raises the threshold from \$350,000, where it has been for the last twelve years, to \$750,000. This alleviates the burden that a small business would incur as external audits can cost between \$10,000 and \$20,000.

Bylaw Review - a meeting was held, after the BOD meeting was adjourned, last month to refresh our memories on the proposed revisions that did not get approved at last year's annual meeting. We discussed creating a bylaw review and revision committee which would include several members as well as a few board members. We also need to review our Member Handbook to ensure that any changes to the bylaws get incorporated where applicable in the handbook. If any member has experience with non-profit organizations re; writing/revising bylaws, or writing standard operating procedures, please send me an email at president@oakdalegunclub.org

Grant Committee – as reported in earlier months, we submitted our application for grant money from Midway USA Foundation and hoping to hear our projects were approved. We have discussed setting up a committee to identify organizations that offer Grant monies toward improvements to our club. This committee would be required to prepare the documentation along with the application and follow all the requirements set by the Grant foundation(s). Please send me an email if you are interested in leading this committee at president@oakdalegunclub.org.

Current Projects –

- New roofs, gutters, and downspouts to be installed in the next month or two on all ranges, the office/house and the club house. Dean Cody is the lead on this project.
- Environmental Management at outdoor ranges – we are going through regulatory information concerning lead management and other pollutants on outdoor ranges. Herb Owen is the lead on this project.
- Damaged trees and brush from the heavy snow this winter are being cleaned up around the club. Dean Cody is the lead on this project.

A huge thank you to Joel Charchenko and Teresa Reiter for scheduling the Stop the Bleed Clinic last month. It was a great success, and we intend to have more clinics at the club. I would like to add a thank you to our board members and volunteer members who put in the hours and get the work done. Each board member has their own work to do in their area, but we all volunteer to help each other on projects because it's important to the vitality of our club. Our members who volunteer their time to improve and maintain our club are equally important.

The GLOCK Sport Shooting Foundation (GSSF) is a safe, fun, family-oriented organization devoted to the responsible use of GLOCK firearms and encouraging participation in shooting sports. Competitions are held across the United States to provide opportunities for shooters of all skill levels and experience to compete together in simple, but challenging courses of fire. Oakdale Gun Club has sponsored GSSF matches since the early 1990's. We were one of the first gun clubs to host the matches and have the record for the longest contiguous host at the same location. This event brings in visitors to the range from all over the country and is a great showcase for our club. Badge Update

Badge mailing was delayed way beyond what I expected in April, as I worked on setting up the permit to mail everything out. I opened a support ticket with the USPS and got started talking to their support. Then, after failing to get a response for over a week, I had to schedule a call with their support to resolve it. After that call, and then with great help from the local post office as to what our best option would be, I was finally able to get that all resolved. As of writing this we're just waiting on the printer to come back with the envelopes. You'll see your badge show up in the mail soon.

The good news is, now that this is set up, we'll save a considerable amount of money and time going forward.

This was all on top of other complications earlier in the process, like the badge printer malfunctioning about half-way through creating the badges, and the power going out at the club for a weekend. Thank you for your patience as I've worked through these issues this year!
